### SKILLS

#### Programming Languages:

- Java
- JavaScript

#### Frameworks & Technologies:

- Spring
- Spring Boot
- Hibernate
- JSP/Servlet
- J2EE

#### Web Technologies:

- HTML
- CSS
- Bootstrap

#### Databases:

- MySQL
- PostgreSQL

### SUMMARY

A Java Full Stack Developer with experience in building scalable web applications and RESTful APIs using Java, Spring Boot, and PostgreSQL. Proficient in front-end development with JavaScript, HTML, and CSS, with expertise in optimizing databases and applying clean architecture. Committed to solving real-world challenges and delivering efficient, impactful solutions.

### PROJECTS

#### Online-Retail-Shopping

- Technologies: Java, Spring-Boot, Spring-DAO, Hibernate, PostgreSQL
- Key Responsibilities:
  - Developed efficient RESTful APIs for CRUD operations; enhanced data retrieval performance.
  - Optimized complex database queries using JSON data and annotations.
- Achievements:
  - Layered architecture has been successfully applied to ensure maintainability and scalability.
    - Controller: Routed client requests to appropriate services.
    - Service: Executed core business logic.
    - Entity: Represented database models using Hibernate annotations for seamless ORM integration.
    - DAO (Data Access Object): Facilitated efficient communication with the database.

#### Movie-Ticket-Booking

- Technologies: Java, JSP/Servlet, JDBC, PostgreSQL
- Key Responsibilities:
  - Created distinct interfaces for administrators and users to streamline the ticket booking process.
  - Administrative features for managing movies and schedules have been developed.
  - Applied a relational database to enhance usability and scalability.
- Achievements:
  - Facilitated online shopping capabilities, resulting in improved user satisfaction and engagement.
  - Enhanced system scalability and usability, enabling seamless user interactions.

#### Camping Tools And Equipment

- Technologies: Android, Firebase, Java, XML
- Key Responsibilities:
  - Developed an application-based shopping system for enhanced camping experiences.
  - Focused on delivering high-quality products to clients.
  - Enabled internet-based shopping from anywhere using Android devices.
- Achievements:
  - Increased user engagement and satisfaction by providing a seamless shopping experience.

### EDUCATION

#### B.Sc. Computer Science

##### Vidya Pratishthan's Arts, Science & Commerce College, Baramati.

Baramati, Maharashtra, India.  
2018-2021

#### M.Sc. Computer Science

##### Modern College GaneshKhind, Pune.

Pune, Maharashtra, India.  
2021 - 2023

### Certification

#### Java EE and Java Framework

- 3RI TECHNOLOGIES

#### Project Development Using Java

- Udemy

#### Java Programming Masterclass

- Udemy
