SKILLS

Programming Languages:
- **Java**
- **JavaScript**

Frameworks & Technologies:
- **Spring**
- **Spring Boot**
- **Hibernate**
- **JSP/Servlet**
- **J2EE**

Web Technologies:
- **HTML**
- **CSS**
- **Bootstrap**

Databases:
- **MySQL**
- **PostgreSQL**

🎓 EDUCATION

B.Sc. Computer Science

Vidya Pratishthan's Arts, Science & Commerce College, Baramati.
Baramati, Maharashtra, India.
2018-2021

M.Sc. Computer Science

Modern College GaneshKhind, Pune.
Pune, Maharashtra, India.
2021 - 2023

🏅 Certification

Java EE and Java Framework

- 3RI TECHNOLOGIES

Project Development Using Java

- Udemy

Java Programming Masterclass

- Udemy

👤 SUMMARY

Java Full Stack Developer with experience in building scalable web applications and RESTful APIs using Java, Spring Boot, and PostgreSQL. Skilled in front-end development with JavaScript, HTML, CSS, and adept at optimizing databases and applying clean architecture. Passionate about solving real-world challenges and delivering impactful, efficient solutions.

📄 PROJECTS

Online-Retail-Shopping

- Technologies: Java, Spring-Boot, Spring-DAO, Hibernate, PostgreSQL
- Key Responsibilities:
  - Designed and developed robust RESTful APIs for CRUD operations, improving data retrieval efficiency.
  - Optimized complex database queries using JSON data and annotations.
- Achievements:
  - Successfully Applied a layered architecture for maintainability and scalability.
    - Controller: Routed client requests to appropriate services.
    - Service: Executed core business logic.
    - Entity: Represented database models using Hibernate annotations for seamless ORM integration.
    - DAO (Data Access Object): Facilitated efficient communication with the database.

Movie-Ticket-Booking

- Technologies: Java, JSP/Servlet, JDBC, PostgreSQL
- Key Responsibilities:
  - Created distinct interfaces for administrators and users to streamline the ticket booking process.
  - Developed administrative features for movie and schedule management.
  - Applied a relational database to enhance usability and scalability.
- Achievements:
  - Enabled internet-based shopping, increasing user satisfaction and engagement.
  - Enhanced system scalability and usability, enabling seamless user interactions.

Camping Tools And Equipment

- Technologies: Android, Firebase, Java, XML
- Key Responsibilities:
  - Developed an application-based shopping system for enhanced camping experiences.
  - Focused on delivering high-quality products to clients.
  - Enabled internet-based shopping from anywhere using Android devices.
- Achievements:
  - Increased user engagement and satisfaction by providing a seamless shopping experience.
